[Times New Roman 10 pt, Italicized]

Abstract

Abstract should be maximum 250 words.

An abstract is a short summary of a research work. It includes: 1) the overall purpose of the study; 2) the basic design/ methodology of the study; 3) major findings or trends found as a result of your study.

Keywords: One; Two; Three; Four; Five; Six (up to 6 words arranged in **alphabetical order**)
[Times New Roman 12 pt Font]

Introduction [Times New Roman 12 pt font in Bold]

Introduction section should explain justification for the study, supported by references. End the introduction section giving objective/s of the study. Avoid first person (I/We) sentences. Careful checking for spelling and grammatical errors should be performed.

Methodology [Times New Roman 12 pt font in Bold]

Brief and complete description about the methods/procedures/materials/ sample used, is expected. Avoid or minimize the use of Tables, Figures and Pictures. Where applicable, mention the sampling procedures, statistical methods, the research question, and conceptual framework/ hypotheses.

Results [Times New Roman 12 pt font in Bold]

Use descriptive figures / tables and explain briefly major findings of the study only.

Conclusions [Times New Roman 12 pt font in Bold]

Conclude your work incorporating your most important finding or the conclusions you have reached, and their potential application or practical implications.

References [Harvard style - Times New Roman 12 pt font]

References should be listed in alphabetical order.
